

Title – Database for Housing Options Away from Campus

Background

Students face various challenges when trying to find off-campus accommodation. Some of them are.

Affordability - To find Affordable rent price which fit's student's budget.

Distance from Campus - To find houses near campuses for easy accessibility.

Security and safety - Safety is the major concern when it comes to housing, this will help to find safer zones.

Lease regulations - Students may not be familiar with regulations, agreements, and Rental's Insurance, this can help student with leasing procedure.

Feedback / Reviews - Student can give feedback and reviews on the facilities/ services provided by the website, which will ultimately help recommending the other students for Ideal selection off campus accommodation.

Objective:

To develop the "Stay Safe Scholars" website which allows the student to find off-campus accommodations by providing detailed information about available housing options, nearby amenities, and transportation in user-friendly interface. This secure and reliable website facilitates communication between students and property owners/brokerage.

The goals of the project are:

- Comprehensive Housing Listings
Offer a comprehensive database of verified housing listings, including apartments, homes, and shared living, contributed by reliable homeowners and brokers.
- Accurate information on nearby places
Integrate mapping and location-based services to show how close housing options are to neighbouring colleges, schools, and other necessities, assisting students in making well-informed choices.
- Verification and Trustworthiness
Establish a rigorous verification process for real estate agents and owners to assure the authenticity and quality of the houses listed, promoting confidence among the student population.
- Customized Recommendations
Enhance the user experience by using user data to provide personalized housing recommendations based on the student's budget limit, preferences, and academic institution.
- Feedback System
Implement a review and rating system so that college students can give comments on their living arrangements, encouraging transparency and accountability among landlords.

By achieving these goals, we will fulfil our purpose to give students a safe and dependable platform in "Safe Stay Scholars," enabling them to access trustworthy information, make informed choices, and improve their overall college experience.
